## Working Prototype Known Problems Report

Wag More (v2.0)

Team: Wag More

1. The pop-up when you buy items in the shop doesn't show up on mobile devices, but shows up on the computer.
2. In the forums, when you click on a post of someone's profile you match with, on their profile page, you can't message them like you could have if you normally clicked on their profile.
3. To get your daily rewards (coins), you have to either refresh the page or click on your profile and then click back (not really a bug, rather a functionality issue). Also, sometimes you get rewards twice a day.
