Actions to stop doing: Everything is good. WE FINISHED.

Actions to start doing: Make sure no bug-surprise. (we made sure but you never know….)

Actions to keep doing: Just collect all documents together!

Work completed/not completed:

- **Task 1:** Clean up comment code COMPLETED
- **Task 2:** Brush up CSS COMPLETED
- **Task 3:** Fix all bugs COMPLETED (there are a couple notified in the report but those are more functionality not bugs)
- **Task 4:** Run live COMPLETED

Work completion rate:

All tasks are completed. Total hours spent: 40+(more than our estimated 14 hours…). Average story completes per day: Depending on what we used. CSS took a long time because of all the different mobile devices. The paw currency and Shop functionality took A LOT OF TIME. There was also a location bug issue but it got fixed. The forum functionality also took some time but all the bugs got fixed.
